questions: "Can I possibly live without When she is out of love, she demands: "Can I possibly live with him?"

test of fealty than public protestation.
When a woman is in love, she only

The latter question is propounded with Peter Gansevoort, the defender of Fort Monks, and James P. Cochran reported better grace in a state of legal matrimony, which demands less of the future, then in a sacramental alliance. A woman married by religious contract is in a way bound to preserve the decorum of the state into which she has entered, quite as much as the nun who takes the vows of sisterhood. A legal union is a frank confession of reliance upon a civil power that converse between the Eureau of Chemistry

tations made to God and man.

BAVARIA'S KING WORSE.

Bodily Strength Fast Going-Will Permit No One to Attend Him. Berlin, Nov. 8.-The afflicted King of Bavaria is worse. The careful efforts ters to keep his condition from public knowledge have been successful on the news has filtered through which shows that King Otto is growing materially feebler. He will not eat anything warm, and seldom will he eat during the day. Persons should be morally convinced Although there are numerous attendants dare appear in his presence, and when their presence is absolutely necessary none of them are allowed to look at him. He will not suffer his hair or beard to be cut, and it is said that he looks the most unkingly of objects in his wild, un-

> His physical health has begun to fail, out no physician dares approach him, and the prescribing of medicines is out of the question. Black night is falling on the inhappy King, more abject in his tragic state than the meanest of his subjects

GOVERNMENT CHEMISTS MEET. Assemble at George Washington

University and Hear Reports. At the session yesterday afternoon of the Association of Official Agricultural Chemists of the Bureau of Chemistry, tion after the legal marriage, the same Agricultural Department; held in George as after the religious one. Make no Washington University Hall, the chief boasts in either case. Time is a better topic of discussion was the report of the ommittee on revision of methods. Action was postponed.

J. H. Pettit, of Illinois, read the report of the work of the association on soils, and L. J. Kehir made the report of the association on medicinal plants and analytical methods as applied to oplum, strychnine, and other alkaloids. After opening yesterday's session at 9

o'clock in the morning, President C. G. Honkins, of Urbana, Ill., immediately re-

linguished the chair and delivered an address dealing principally with technical question of the fertilization of certain The officers and committees of the as-

dent Amader to-day.
